Junior Web Developer
The Fake Company
Halifax, NS

I am writing you in regards to receive a position with your company. I am currently studying IT Programming at NSCC, Annapolis Valley campus. I am only in my first year of study, but I do not consider myself a beginner with computers, as I am normally spending 8+ hours per day on them, whether it be working, learning, or playing games. Since starting school in September, I have found that my interests lean strongly towards web development, and I feel that I am picking up on it quickly. I am already very comfortable with HTML, CSS, and a small amount of JavaScript, which I am currently in the process of learning.

I previously graduated from the Public Relations program at Conestoga College, where I worked part-time as an IT Support Technician, and gained valuable skills that relate directly to the skillset required for this position.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Tristin Mckellar
